

Piling activities at various locations on Fraser Highway

To prepare for the construction of the Surrey Langley SkyTrain, early works are underway in the area. Construction activities including geotechnical investigations and test piling activities are scheduled along Fraser Highway in September at the following locations:

- 15127 Fraser Highway (slightly west of 152 Street and Fraser Highway) **expected to take place in mid to late September over several shifts*
- 16039 Fraser Highway (slightly east of 160 Street and Fraser Highway) **expected to take place in early October over several shifts*
- 18375 Fraser Highway (northwest corner of 184 Street and Fraser Highway) **expected to take place in September over several shifts*
- 18565 Fraser Highway (former Midas Auto) **expected to take place in mid-October over several shifts*

These activities are required to help gather critical information about the underground soil conditions before permanent construction begins. It involves using specialized equipment including a large drilling rig and cranes that will be used for the installation of a steel shaft and rebar cage. There may be an increase of noise generated by the drilling and other associated construction activities during work times. The workplan and schedule is subject to change.

What to Expect

Timing

Piling activities are expected to take place between September 2024 into Fall 2024 over several shifts for each location above.

Hours of Work

Monday to Friday from 7 a.m. to 8 p.m.
Equipment expected to arrive ahead of construction each day, sometime between 5 a.m. and 7 a.m., and will be offloaded as it arrives.

Traffic

There may be intermittent lane closures during these activities.

Impacts/Interruptions

There may be a temporary increase in noise while this work is taking place, including when equipment is brought to site ahead of time.
