

Updated: Foundation Construction along Fraser Highway

Current construction activities for the Surrey Langley SkyTrain project include preparing sites and ground improvements to support the future guideway piers and SkyTrain stations. Construction of the foundations for guideway piers requires drilling or driving steel and concrete piles into the ground, with specialized equipment, including large mobile cranes and drill rigs (as pictured below).

Fig: Mobile cranes and drill rigs will be used for foundation installation.

Foundation construction is taking place at or near the following locations along Fraser Highway:

- 140 Street (future Green Timbers Station): anticipated to begin February 2025 until fall 2025
- 152 Street (future 152 St Station): ongoing until spring 2025
- 160 Street (future Fleetwood Station): ongoing until spring 2025
- 166 Street (future Bakerview-166 St Station): ongoing until spring 2025
- Highway 15: ongoing until late 2025
 - The area east and west of Highway 15 requires driving piles. Driven piles are anticipated to begin mid-January. There will be a temporary increase in noise and vibration during this activity.
- 184 Street (future Hillcrest-184 St Station): ongoing until summer 2025

What to Expect

Timing

Foundation construction will occur throughout the project corridor until early 2027. Please visit our website for updates on locations and timing.

Hours of Work

Monday to Saturday from 7 a.m. to 10 p.m.
Deliveries outside of construction hours may be required.

Traffic

Traffic pattern changes are anticipated around work areas. Please refer to our traffic updates where applicable.

Impacts/Interruptions

Temporary increases in noise levels are anticipated. Monitoring for noise and vibration will be in place while work is underway.
