Dear Neighbour,

### Re: Overnight roadwork on Highway 15

To support the growing transportation needs in the region, South of Fraser Maintenance and Storage Facility (SFMSF) is under development in Surrey. Located at the southeast corner of Fraser Highway and Highway 15 (176 Street), the SFMSF will serve as a necessary SkyTrain vehicle storage and maintenance facility to support the region's SkyTrain network.

Starting the week of May 19, 2025, there will be overnight roadwork on Highway 15, south of Fraser Highway (please see map). The northbound shoulder will be widened, and an access road to the site will be built.

#### Details of work

- **Hours:** Monday to Friday, from 6 p.m. to 6 a.m., to reduce traffic impacts.
- **Lane closure:** The northbound right lane of Highway 15 will be closed from 9 p.m. to 5:30 a.m. One lane northbound will remain open.
- **Cyclists and pedestrians:** Traffic control will be in place to direct people around the work zone.

#### What to expect

- There will be an increase in construction vehicles and equipment in this area, including excavators, compactors, and hauling trucks, which may temporarily increase noise.

The contractor will take steps to minimize impacts. The roadwork is expected to be completed by late June.

Thank you for your patience and understanding while we complete this work. We will provide updates about the SFMSF, including additional site preparation works planned later this year, as they become available. For more information, please email [sfmsf@gov.bc.ca](mailto:sfmsf@gov.bc.ca).
