

UPDATED: Extended Hours and Foundation Construction Laneway East of Highway 10

Map: Work area for foundation construction requiring extended hours.

For more information about foundation construction in Langley, please see our [postcard](#).

Other activities will take place during regular hours of construction, Monday to Saturday 7 a.m. to 10 p.m.

Surrey Langley SkyTrain construction is underway, including construction of the elevated guideway in the laneway near Highway 10 and Fraser Highway.

Foundation construction in this area requires the installation of retaining structures and pile driving before the guideway columns can be constructed. This type of work is expected to increase noise levels and can cause vibrations. To reduce impacts to those working in nearby businesses, the hours of this work are adjusted and include extended hours.

Starting the week of February 17, 2026, there will be intermittent pile driving and foundation work outside of regular construction hours in the laneway.

- For approximately six weeks, work will be permitted until 1 a.m., Monday to Saturday evenings (up to Sunday 1 a.m.)
- From mid-March to mid-August work will occur until 10 p.m.
- Noisy activities will not start until 12 p.m. during this time.
- Retaining structure installation and pile driving will be intermittent during this time, depending on the stage of work.
- Mitigations such as noise shrouds around pile driving equipment and noise blankets will be in place where possible.
