

Traffic Update: Overnight traffic stoppages on Fraser Highway between 168 Street and 184 Street

Construction of the Surrey Langley SkyTrain is underway, including the delivery and installation of beams for the future SkyTrain guideway. This requires intermittent traffic stoppages. Work will take place overnight to reduce traffic impacts. The following will be in effect from May 25 through late September 2026:

- **Single lane alternating traffic from 168 Street to 184 Street** to prepare areas for beam installation Sunday to Thursday nights from 9 p.m. to 6 a.m.
- **Intermittent traffic stoppages** of up to one hour in either location to safely deliver and lift beams into place between 11 p.m. and 5 a.m.
 - **168 Street to Highway 15** starting early June 2026 for two months.
 - **Highway 15 to 184 Street** starting mid-June 2026 for three months.
- Business and residential access maintained.
- Traffic control to prioritize local access in advance of active work areas.
- Temporary increases in noise are expected during this activity. Mitigation measures are in place to reduce noise and direct lighting to construction areas.
