

Updated: Pile driving and track installation on Industrial Avenue

This is an update to the notice distributed on July 6, 2026 to reflect construction updates.

Map: Industrial Avenue between 200 Street and 203 Street.

Mitigations such as noise shrouds around pile driving equipment and noise blankets on fencing will be in place where possible.

Business access will be maintained. Our team will be in contact with businesses to discuss access as work progresses.

Construction of the elevated guideway is underway on Industrial Avenue between 200 Street and 203 Street, and track installation is beginning at 203 Street and Industrial Avenue.

Pile driving for column foundations is underway on Industrial Avenue east of 201A Street and is expected to continue through November. To advance construction in this area, extended hours will continue. Please be aware of the following:

- Crane mats, office trailers, fencing and crew parking will be placed in the project area on Industrial Avenue.
- Pile driving activities can increase noise and cause vibrations.
- Intermittent overnight welding activities will occur. These activities are not expected to significantly increase noise.
- **Work may occur on Sundays and statutory holidays through November 2026. Pile driving will not take place before 9 a.m. or after 5 p.m. on Sundays and statutory holidays.**
- Access for pedestrians and cyclists is located on the north side of Industrial Avenue.
- Eastbound traffic only will continue on Industrial Avenue from 200 Street to 203 Street.

What to Expect

Timing

In effect through November 2026.

Hours of Work

Construction hours: 7 a.m. to 10 p.m.
Monday to Sunday and on statutory holidays.

- Welding activities may occur overnight.
- **Pile driving activities may occur on Sundays and statutory holidays between 9 a.m. and 5 p.m.**

Traffic

Eastbound only traffic on Industrial Avenue.

Impacts/Interruptions

Intermittent noise and vibrations. You may notice things like water in glasses moving or light fixtures swaying. Vibrations are assessed prior to construction and monitored at active work areas to ensure building structures are not affected.
